

Esrog grading system.

Are you confused between all the different grades we offer? It's quite simple. There is a natural progression in the quality as you choose a higher grade arbah minim set. However, all of our sets have authenticated kosher certificate from Israel.

The Economy set it is our lowest grade set. It is generally utilized by entry level users. Next is the Basic set. It is also considered entry level but is of somewhat higher quality than the Economy set. Our most popular sets are the Standard, Deluxe and Premium sets. As we progress from grade to grade, your esrog will be that much more beautiful, with fewer blemishes and imperfections. Additionally, it will be a more perfect shape. The Rabbi set is our most exquisite arbah minim set. However, you do not have to be a Rabbi to purchase it! This is the esrog that people will say "wow". It is a magnificent esrog. An esrog that you will be proud to use this Sukkot and bring to your Synagogue. The lulav, willow, and myrtle are all of similar quality. There are different lengths though. Longer or shorter lulavim are a personal preference. The size of the lulav has no bearing on the grade. We offer first choice from our supply of lulavim to those ordering higher grade sets.

Thanks,

Levi Zagelbaum
